

Sport Funding

2022-2023

Budget to be spent on improving PE and sport provision = £17110

How we use the Sport Funding

The school receives additional money for physical education (PE) and sport. The funding is to be used to improve the quality and breadth of PE and sport provision.

Stretton Sugwas Academy is free to determine how best to use this funding to improve the PE and sport provision. The overarching aim is to increase participation in PE and sport so all pupils develop healthy lifestyles and reach the performance levels they are capable of. This can include training for staff and teachers; providing additional opportunities for children to participate in sport; purchasing specialist equipment and enhancing the PE curriculum to engage all learners.

A review of how the money was spent last year can be viewed on the school's website. Many of the actions are the same or similar, as the previous years have been very successful.

Stretton Sugwas will be providing the following:

How we will measure the impact

1. Staff will have a greater confidence in planning and delivering high quality PE. This will come from observations of pupils and staff during PE lessons and teachers using their improved knowledge to run their own clubs.
2. Equipment will be used more effectively. This will come from observations of lessons.
3. Pupil Voice - Feedback from pupils will feature as part of the impact measured.
4. An increase in participation in after school clubs and sports in general. This will come from club registers and feedback from specialist coaches and teachers.
